Selling Snake Sticks

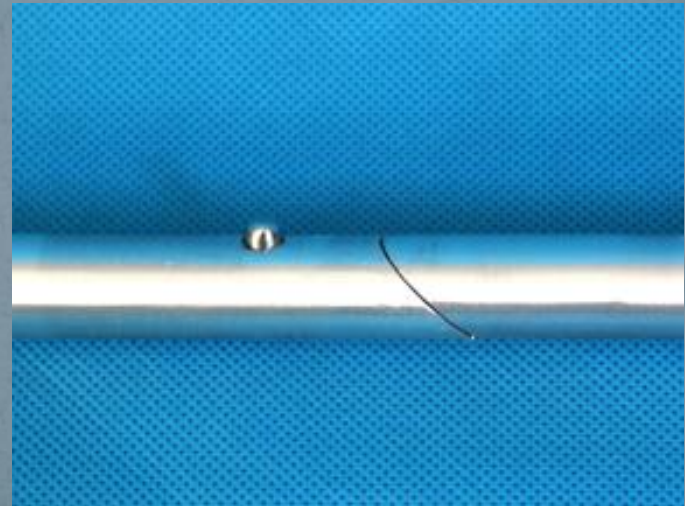

Hi I'm John and I have been selling Snake Sticks for over 15 years. And in that time I have discovered what works and what does not. In the beginning I had only the Standard model. I learned it was good for the home owner that keeps the stick in his garage and goes after a small to medium size snake (Not over two feet) maybe once a year. But would not hold up to taking it in the woods and actively hunting and catching snakes. We have discontinued the Standard model.

Now I have the NEW EXTRA HEAVY DUTY (EXHD) line. I am so proud of this snake stick I have given it a lifetime Warranty. If it breaks for any reason send it back for a free replacement And It comes with: The New Stainless Steel Tube and Connector, Stronger Return Spring, Stronger Cable, Aircraft Aluminum Jaw and Handle. This stick is made to last a life time and is strong enough to get that really big snake.

Extra Heavy Duty

Made with Stainless Steel and aircraft Aluminum - 30% Thicker Than The Standard Model Made With The New Stainless Steel Stronger Connector (For That Really Big Snake and Heavy Use)
